# TELLAM

## Civil Products

ABN : 23 764 280 802

**"Number 1 in Civil"**

***Introducing TCP's range of Halgan Polyethylene MGT's***

- Compact and lightweight– they can even fit through a doorway!
- Easily installed eliminating the need for cranes on site! Dig the hole and drop it straight in with the same machine! A 1000 litre unit weighs only 90kg!
- Available when you need them, ex stock. You can even carry them on your ute!
- Australian made from virgin polyethylene for high acid resistance and long life (+50 years). Highly durable– resistant to cracks, dents and breaks –UV stabilized
- Easily cleaned requiring minimal rinse water as the smooth wax-like surface hinders the build up of coagulated oils and fats
- Can be easily installed above ground without the need for a frame
- Multiple units can be installed side by side or inline enabling placement in tight or restricted areas
- Council approved
- Competitively priced against lined concrete traps
- Only one single gas tight cover required per unit– not multi part!
- Available for both heavy and light duty situations
